CROP OF EL PASO DAFFYDILS CONTINUES TO BE PLENTIFUL; CONTEST ENDS

THE Daffydil editor sees daylight and hope ahead; only one more day and then the contest is over. He is still snowed under with the productions of brainstorms that have come sailing in under the name of Daffydils, but as the end is near, he may survive. Among the last contributions received are many on subjects that have been handled by others; these have as far as possible, been eliminated. In many instances, where contestants attempted puns on the names of friends and acquaintances, they did not know how to spell the names, hence, when the spelling was corrected, the effect of the pun was lost; such as these also had to be eliminated.

On the whole, the assortment of Daffydils has been splendid. Many readers have enjoyed them and the editor has not had such a hard task of it as he intimates, for he has had the advantage of reading all the jokes first, and enjoying most of them, too. He only lost his temper at those who wrote on both sides of the paper.

Tomorrow is the last day. If you haven't sent in a Daffydil, try your hand at it now.

"Miss Jack" asks: If Walter Shelton should kill a duck would Ed Pennebaker?

If mother should scold us, would Winston Pettus?

If Jack Dawson wanted to run, would Will Race?

J. A. Bennett submits these: Why should Dr. Pepper let Ginger Ale?

You saw wood and let Red Raven Split.

Will time freeze a lemonade? If you butcher a hog, you chop-suey.

Let Max Afoye grass. If it's against the law, why club women?

C. H. Damill asks: If the golf club did not have any grounds, would sausage links do?

If he is a good dresser, is J. F. Prim? When Mrs. Green failed, did rock-breaker?

Should he die when would Will Copebie?

If the police turned J. L. Luse was Ed. Held?

When the fountain is playing, does Lee Sing?

If Brauns Hart was Long and Gray's hair red is S. G. Harless?

When the Rio Grande was low, did John Ford?

If there wasn't any department stores where would hat shop?

If tied up so it could not move, could a lobster?

PREPARING TO SEND OUT MANY POSTCARDS

Tucumcari Also Enters Upon a Lively Statehood Boosting Campaign.

Tucumcari, N. M., June 20.—Postcards are being printed descriptive of this city and will be distributed free to the people by the Tucumcari chamber of commerce for postcard day.

June 22. Sufficient have been printed to meet any demand, which will be heavy as the citizens have taken up the idea of the general day for advertising New Mexico and are following it heartily.

Another work that the association is doing is the distribution of typewritten forms to the business men to be sent east to their business connections there, asking them to write a personal letter to their senators in Washington requesting them to work for statehood for New Mexico.

Several hundred of these forms will be sent eastward within the next day or two.

Another rain of nearly a half inch fell here Sunday night, following the precipitation of four-fifths of an inch the evening before. Pools of water are to be seen standing all over town and the ground has been saturated to a depth of several inches.

The local lodge of Masons will observe St. John's day, Saturday, June 24, at 8 p. m. at the M. E. church.

South, J. W. Campbell delivering the address. The high school orchestra will furnish the music, in addition to several special numbers by Tucumcari players. The exercises will be open to the general public.

B. B. Kronenberg and R. N. Hanau, formerly with the Goldenberg company of this city, have purchased the mercantile business of Wharton & Co. of Tuscarora, and have taken charge of the business under the name of the Tuscarora Trading company.

TERRITORY APPEALS FROM CHILDREN'S HOME DECISION

Santa Fe, N. M., June 20.—The territory has appealed from the decision of Judge John R. McFie, the mandamus that he granted upon the territorial auditor to pay \$5000 to the Children's Home society of Albuquerque. The last legislature appropriated that amount yearly for the building of the home, but no session of the legislature was held this year as there would have been if it had not been for the enabling act. The question is whether the appropriation holds good beyond the two year legislative period.

HEAT-ON GLASS CAUSES BIG WINDOW TO CRACK.

The fine plate glass window with the picture of Grand Canyon painted upon it, in the Santa Fe offices, broke yesterday due to unequal expansion. Trost & Trost, the architects of the building, said that the black sign painted upon the window, did not reflect the heat, and the plain glass around it did, so the two conflicting expansions caused the window to break. This has been proved true of other windows about town.

Dr. S. T. Turner, accompanied by his wife and niece, Miss Mabel Falvey, left this morning for a three months' trip to Alaska.

End Bowel Misery With a 'Cascaret'

Never any Headache, Bilelessness, Indigestion, or Constipation—No more miserable days after this.

This is the day of the gentle in medicine. The cathartic pill is old-fashioned. Salts and castor oil belong to grandmother's time. The modern doctor deals mildly. Cascarets are effective, yet gentle. They don't irritate or gripe. They don't like cathartics.

waste the digestive fluids. Cascarets do only what some foods will do, what some fruits will do, what exercise does for the bowels. Their action is natural, not artificial. If you live outdoors, exercise a great deal, and avoid rich foods, you don't need them. Otherwise you do.

The most helpful laxative ever devised is Cascarets. They are candy tablets, pleasant to take. Then, they are convenient. The ten-cent box fits the vest pocket or the lady's purse. That is a vital point. The time to take a laxative is the minute you suspect that you need it. Don't wait till you get home; don't wait till night. One Cascaret, taken any time, makes you feel great and they cost only 10c per box.

ENGINEER HILL IS VISITING DAMSITE

Cottages at the Townsite Are Being Screened by Reclamation Service.

Elephant Butte, N. M., June 20.—Louis C. Hill, supervising engineer of this project, stopped off here for a few days on his way to his home at Phoenix, Ariz. He is just returning from a trip to Utah on business for the reclamation service. He was met at Butte Junction and came in on the motor car.

The church services at the tent at the townsite were well attended Sunday evening. The attendance at Sunday school in the morning was larger than usual.

The late rains have greatly benefited the range. The grass and numerous wild flowers adorn the mountain sides. The aid society will hold a social at the townsite on Thursday evening. Ice cream and cake will be served.

The chief attractions here these evenings are tennis games.

The work of plastering the mess building has begun.

Screen are now being placed on the cottages on the hill. The flies in camp are comparatively few, compared with towns of the same size. The sanitary officer, Dr. J. Dale Graham, has waged a war on flies here and his efforts have in a great measure been successful.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all dealers.

LAS CRUCES LINE IS BEING SURVEYED

Southwestern Is Selecting a Route for a Possible Branch Road.

The El Paso & Southwestern railway road's civil engineering corps began work Monday afternoon on a survey between Pelea, N. M., and Las Cruces, a distance of 35 miles, with the purpose of selecting a route for the building of a line between these points.

Twenty men are working on the survey and it is expected that the plans will be ready in about a month.

Whether this means that a branch line will be built is not known, but it is expected that a line will be built over this survey in a short time.

J. L. Campbell, engineer of maintenance and ways on the Southwestern, under whose direction the work is being done, said: "The engineers will survey on the west side of the Rio Grande up the valley 35 miles to a point opposite Las Cruces. This, however, is no indication that the El Paso & Southwestern will run a branch line over this way and the survey is just being made by the company to determine the feasibility of a branch line should the occasion of future business justify it."

The survey will take up a month's time and it is not known yet by the officials of the road whether the survey will be extended to the Elephant Butte dam or not.

Mrs. Frank Anderson and mother, Mrs. Kneeland, arrived in the city last night over the Mexican Central from Torreon, to visit the family of police chief Ben Jenkins.
